

CORNERSTONE
REBUILDING LIVES, RESTORING HOPE

INDIVIDUAL VOLUNTEER OPPORTUNITIES

Cornerstone offers a variety of one-time and long-term volunteer opportunities for individuals looking to donate their time and talents.

MAINTENANCE/GARDENING: Share your skills or trade to assist with landscaping needs to keep our grounds welcoming for clients. No experience is required. Yard waste bags can be provided by Cornerstone.

VOLUNTEER ASSISTANT: Support the volunteer department by assisting with database entry, organizing volunteer groups, clerical support and participating in special events.

EVENT SUPPORT: Support our development department by assisting at special events geared toward raising awareness and support for Cornerstone's programs. Tasks may include pre-event support, research or other support that can be done from home.

INTERNSHIPS: Grow your skills and learn about working at a nonprofit organization. Please see our website, www.cornerstonemn.org for current openings.

ADMINISTRATIVE SUPPORT: Provide assistance to Cornerstone's programs. This is a project-based volunteer opportunity.

JOIN THE MEN'S COUNCIL: Join other men in the community in taking action to end gender-based violence by creating opportunities for engagement, education and community outreach. The Council meets regularly to create a forum for men to actively support Cornerstone's mission and find new ways to involve greater numbers of men in prevention and awareness efforts.

JOIN THE YOUNG PROFESSIONALS BOARD (YPB): Connect with other young professionals in their 20s and 30s to increase awareness about Cornerstone and engage with the next generation of contributors. The YPB supports Cornerstone through consistent networking, marketing and fundraising efforts geared towards the under 40 crowd. The annual application period opens in late summer/early fall.

INTERESTED IN VOLUNTEERING?

Please contact Crystal, Cornerstone's volunteer coordinator, at Crystalk@cornerstonemn.org
Volunteers must be at least 18 years of age; a background check is required
